Bluetooth Keyboard Pairing

Step 1: Put 2 AAA batteries.
Step 2: Turn on the power toggle switch. The status indicator light will be on for 3 seconds, and then the light will go off.
Step3: Press on "FN+C"button together on keyboard, the indicator light will be blinking.
Step4: Turn on Bluetooth setting in your device, your device will automatically find "1byone Keyboard", select its name to connect.
Step5: Select "1byone Keyboard" on your device, click on it, the keyboard will now be paired automatically and the Bluetooth indicator will be off.
Step6: Once the Bluetooth keyboard has successfully connected to your device, the Bluetooth indicator will turn off.

SPECIAL NOTE:
1. This keyboard doesn't support the Windows Mobile.
2. For Android users: The Caps Lock indicator may not light, but will still function normally.
3. Apple iOS will not support touchpad mouse function.
4. Press"For Android","For Win" keys to shift between Android or Windows systems after it's connected successfully. Otherwise the keyboard's function key will be invalid.
5. When connecting the keyboard with a PC, please note that a Bluetooth receiver is required (Not Included). Connecting the device with a tablet, smartphone or any Bluetooth device does not require a separate receiver.

Power Saving Mode
The keyboard cover will enter sleep mode after being idle for 30 minutes. To active it, press any key and wait for 3 seconds.

Replace the battery
When the battery is low, the status indicator will turn blue. If there is no light displayed at all, the battery is completely drained. For both situations, it is time to replace the battery.

Usage tips
Do not place heavy objects on the keyboard cover.
Do not knock or dismantle the product.
Keep the product away from oil, chemicals, and organic liquids.
Clean the product by lightly rubbing it with a slightly damp cloth.
